PCCA International Seminar October 6-9, 2010 ♦ Sugar Land, Texas

Let PCCA show you how to keep your life in balance!
As compounders we are all aware of the multiple challenges that face us in our lives every day and the difficulties in keeping our lives in balance. This year's International Seminar is unique in that we want to help you get your life into balance so that you can "lean forward," focus, and grow your business. It doesn't matter if you are a compounder who has never attended a PCCA International Seminar or are a seasoned and "balanced" PCCA member – **you cannot afford not to be here in October!**

WHAT MAKES THE PCCA OCTOBER INTERNATIONAL SEMINAR THE COMPOUNDING EVENT OF THE YEAR?

- **Get specific information that you need to grow your practice!** We asked our member-based Advisory Council what you, the compounder, wanted to have and they told us: **Every offering available at the International Seminar must be capable of growing a member's business.** You got it!
- **More useful information than anywhere else in the industry!** Once again, PCCA is utilizing multi-track programming to present all of the compounding information available. Business tracks, clinical tracks, networking – it's all there. There is so much information available at this year's seminar you will have to bring a colleague, an employee, or a clone to gather it all. We are offering you, our member, a compounding cornucopia. **And, for the first time ever, we have a number of workshops featuring both pharmacist and technician CE! If you have a certified pharmacy technician in need of CE hours, we have the informative, compounding-based programs just right for them. Take back twice as much information by bringing your technician to Houston! We will exceed your expectations!**
- **This is the one and only International Seminar!** If you miss this seminar, you will have to wait one year to get all of this information presented to you under one roof, over one weekend. **Can you afford to miss that?**
- **This is your opportunity for unlimited networking!** The networking, sharing, colleague-building culture of compounding will be available in full force daily on October 6-9. Learn from your peers and develop friendships at all of the weekend's events!
