

# Probiotic Daily Support

5 billion Viable Cells – 120 Capsules

## DESCRIPTION

Each Probiotic Daily Support capsule contains over 5 billion beneficial organisms, including representatives of both the lactobacillus and bifidobacterium genera, mixed in a base of prebiotic fructooligosaccharide.

## FUNCTIONS

Oral supplements of live, beneficial intestinal microorganisms for nutritional health and well-being are known as probiotics. Probiotic dietary lactobacilli colonize the intestinal tract, depending on the specific bacterium-to-host affinity. Bacteria are continually in competition for colonization space. The original bacterial colonies have an advantage of transient bacteria. Nevertheless, the composition of the intestinal microflora is dynamic and constantly changing.

If harmful microorganisms proliferate, the equilibrium is disturbed, and it becomes difficult even for indigenous bacteria to maintain their necessary territory to colonize the intestine. Antibiotics tend to kill off both beneficial and harmful bacteria, and thus may also disturb the normal, healthy balance of intestinal microorganisms.

When potent probiotic supplements, such as Probiotic Daily Support, are supplied daily, chances are greatly increased for establishing and maintaining a healthy population of beneficial intestinal microorganisms. Once established, a normal intestinal microflora rich in lactobacilli creates acidic conditions that are unfavorable for the settlement of pathogenic microorganisms. The 8 probiotic strains found in Probiotic Daily Support are Bio-Enhanced Acid Resistant Strains (BEARS), which ensures survivability in both low (acid) and high (alkaline) pH environments. The BEARS strains in this formula are designed to withstand the acid conditions present in the stomach during digestion without the need for enteric coating. The various probiotic strains are manufactured using a patented poly matrix preservation system, to preserve and ensure stability without the need for refrigeration. The prebiotic blend used consists of fructooligosaccharide (FOS) and arabinogalactans that help support the growth of the probiotics.

Probiotics have been shown to exert a beneficial support through modification of the immune system host via the gut environment.

Clinical trials also suggest that the exposure to microbes through the gastrointestinal tract powerfully shapes immune function. *Lactobacillus rhamnosus* is one of the most widely studied probiotics, noted and valued for its ability to survive in the harsh conditions of the digestive and urinary tracts. *L. rhamnosus* is extremely well tolerated by men and women with very rare side effects. Studies have shown that, taken regularly, *L. rhamnosus* can be an effective supplement in promoting and maintaining digestive tract health.

## INDICATIONS

Probiotic Daily Support capsules may be a useful dietary supplement for those who wish to support their intestinal microflora with meaningful amounts of beneficial microorganisms.

## FORMULA (WW #10310)

### 1 Vegetarian Capsule Contains:

Proprietary probiotic blend .....	23.7 mg (5 billion CFU)
<i>Lactobacillus acidophilus</i> .....	La-14
<i>Bifidobacteria lactis</i> .....	B1-04
<i>Bifidobacteria bifidum</i> .....	Bb-02
<i>Bifidobacteria longum</i> .....	B1-05
<i>Lactobacillus rhamnosus</i> .....	Lr-32
<i>Lactobacillus plantarum</i> .....	Lp-115
<i>Lactobacillus salvarius</i> .....	Ls-33
<i>Lactobacillus bulgaricus</i> .....	Lb-87
Prebiotic blend .....	60 mg
(Fructooligosaccharides (FOS), larch arabinogalactan (FiberAid®))	
Other Ingredients: Cellulose, vegetarian capsule (modified cellulose, water), silica, magnesium stearate and calcium silicate.	

This product contains NO sugar, salt, dairy, wheat, gluten, preservatives, artificial colors or flavors.

## **SUGGESTED USE**

As a dietary supplement, adults take 1 vegetarian capsule daily during meals, or as directed by a health care professional.

## **SIDE EFFECTS**

No adverse effects have been reported.

## **STORAGE**

Store in a cool, dry place, away from direct light. Keep out of reach of children.
